The epitome of Italian-style riviera luxury, Sirenuse is a new custom-built charter yacht making waves. Since her arrival in late 2022, the MCY superyacht has redefined the yachting experience, combining the height of modern comfort with the undeniable romance of classic Italian style. Below deck, every inch of Sirenuse has been finished to the highest consideration of quality, style and overall experience.

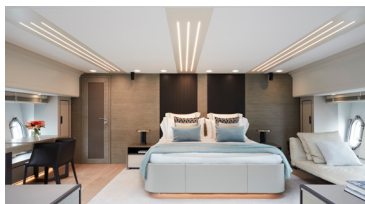

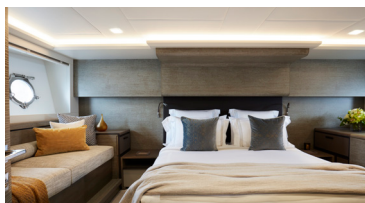

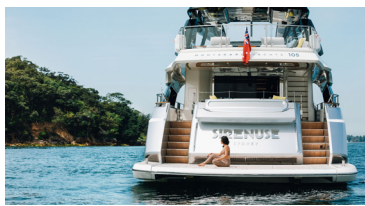

Contemporary interiors offer the ultimate in comfort and serene modern style, complete with four generous guest suites (each with private ensuite) and an indoor dining area.

The spacious flybridge brings new meaning to relaxation. Overlook the harbour from its finest viewpoint, while sinking into the calming bubbles of the hot tub. While on the lower deck, passengers can share an alfresco dining experience, toasting the sunset, passing the night away with the warm sea breeze against their skin.

With charter packages available to suit any occasion, Sirenuse and her crew are ready to make your next event a truly unforgettable voyage. Welcome aboard.
